

Autism: Collaborating for a Cause

ViaCord financially supports Phase 1 Clinical Research Trial with Duke University Medical Center to study safety of cord blood infusion in children with Autism.

30%
INCREASE IN CASES OVER THE LAST 2 YEARS¹⁰¹

The CDC reports: **1 in 68**
kids are diagnosed with Autism¹⁰¹

Cord blood stem cells are known to have characteristics that could potentially help the underlying causes being researched for Autism Spectrum Disorder.¹⁰⁶

Emerging Research: *Clinical research trials are also being conducted for the following conditions:*

- Cerebral Palsy^{28,29}
- Type 1 Diabetes^{23,31,32,84}
- Brain Injury⁹²
- Autism⁷⁴
